

Monarflex[®] Anchor & Strap

Flexible in all directions to relieve stress across the sheeting surface

- Impact resistant polyamide with EPDM rubber strap
- Resists stresses in all directions while retaining flexibility to relieve stress across the sheeting surface
- Ensures the sheeting stays in place and maintains its shape
- Extreme holding strength - exceeds BS7955
- UV stabilised

Monarflex supply high performance fixing systems that provide reliable, secure fixings that can be installed very quickly, saving time and money on site.

Anchor & Strap Fixings

The only wind-tunnel tested fixing system on the market. This unique, patented system is quick to fit and withstands storm force winds. Anchor & Strap has been specially developed for use with Monarflex Super T Plus scaffold sheeting ranges.

System performance exceeds the performance specifications in the British Code of Practice for Containment Nets & Sheets BS8410:2007.

The Anchor & Strap exceeds the requirements of BS7955 by 25% with a tested pull out strength of 750N.

Features & Benefits

- Impact resistant polyamide with EPDM rubber strap.
- Resists stresses in all directions while retaining flexibility to relieve stress across the sheeting surface.
- Ensures the sheeting stays in place and maintains its shape.
- Extreme holding strength exceeds BS7955.
- UV stabilised.

When passed through the eyelets the Anchor & Strap system effectively locks two sheets together, preventing wind-driven rain penetrating the scaffold installation and guarding against internal debris falling out through gaps in the sheeting.

Pieces per bag: 100 pieces.

Refer to Wind Chart Guide for more information.
